Capabilities

Steel laser cutting

- ❖ 10-kilowatt Prima Laser
3000x1500mm
– **High speed Power**

Oxy steel profile cutting

- ❖ Triple head CNC controlled
– **Clean cut to 250mm depth**

CNC Brake press forming

- ❖ Five presses to 400 tonnes and 6m long
– **Volume flexibility**

Automatic Robotic MIG welding

- ❖ Consistency of form and finish -
– **Special Purpose welding**

CNC machines

- ❖ **Milling** to
1430x800x700mm
- ❖ **Turning** up to 380mm diameter 650mm long
- ❖ **Multitasking** simultaneous 5 axis milling and turning 670x1400mm
- ❖ **Probing & co-ordinate** measurement capable

Quality & Accreditation

- **ISO9001:2015 Certified**
