

ZenithGroup

SERVICES | Zenith Group is a unique value proposition of metal manufacturers within the defence supply chain.
Services include project management, state-of-the-art steel laser cutting, fabrication, precision machining and assembly.

DISCRIMINATORS | A more flexible and responsive supply chain partner

Broad Capability. Depth of Experience. Defence and Industry Proven.

Respond to Bid and Work packages as well as complete projects in full, quoting all parts. Your capability bridge with proven import replacement.

Local Manufacturing hub
Multiple factories in Melbourne.

Multi Axis CNC
Five axis and dozens of individual CNC machines

High Speed 10kW Fibre Laser Cutting

CAPABILITIES |

Steel laser cutting

10-kilowatt Prima Laser 3000 x 1500mm
High speed power

Oxy steel profile cutting

Triple head CNC controlled
Clean cut to 250mm depth

CNC Brake press forming

Five presses to 400 tonnes and 6m long
Volume flexibility

Automatic Robotic MIG welding

Consistency of form and finish
General and special-purpose welding

CNC machines:

Milling to 1430 x 800 x 700mm

Turning up to 380mm diameter,
650mm long

Multitasking simultaneous
5 axis milling and turning
670 x 1400mm

Probing & coordinate
measurement capable

KEY CUSTOMERS |

Land 121 3B & 5B Rheinmetall

Boeing Ghost Bat (ATS) Program

DST GROUP

Sea 5000, DH36 steel plate prototypes;
SEOSS downselect

RHEINMETALL
DEFENCE

Ferra

Rosebank Engineering

QUALITY AND ACCREDITATION |

ISO9001:2015 Certified
